WE ARE BASED HERE :

OUR FARMS ARE ROOTED IN TWO OF MOROCCO'S MOST PRIVILEGED REGIONS:

- **Loukkos** – A fertile coastal valley where rich soils and a mild climate give our fruits their vibrant flavor and natural freshness.
- **Souss massa**– Bathed in sunshine and nourished by modern farming techniques, Agadir ensures year-round excellence and consistent supply.

From these unique terroirs, we bring you fresh berries and avocados that combine taste, quality, and authenticity.

OUR VALUES

We are committed to responsible cultivation and strong partnerships, ensuring that our fruits reach international markets with excellence. Through sustainability, innovation, and reliability, we bring Morocco's freshness to the world.

CERTIFICATIONS:

Certified by Global GAP, Grasp, Smeta BRC for safety, sustainability & ethics.
